PERSONAL STATEMENT

I am a highly motivated individual transitioning from a career in airport security to front-end web development. With nearly 8 years of experience in security roles, I bring strong problem-solving, attention to detail, and communication skills. Now trained in HTML, CSS, JavaScript, and React, I am eager to apply my analytical abilities and passion for technology to create engaging and user-friendly web applications.

PROFESSIONAL EXPERIENCE

Gatwick Airport LTD, Gatwick Airport — *Airport Security Patrol Officer*

OCTOBER 2023 - PRESENT

As an Airport Security Patrol Officer I manage my own time effectively, work independently on tasks and balance my workload while maintaining strong communication with colleagues to collaborate on completing tasks or seek assistance when needed.

- This experience strengthens my ability to prioritise, work autonomously and communicate efficiently.
- This role has given me great critical thinking skills and the ability to work under pressure.

Gatwick Airport LTD, Gatwick Airport — *Airport Security Officer*

NOVEMBER 2016 - OCTOBER 2023

As an Airport Security Officer I developed strong skills in responding to incidents and working under pressure, which have enhanced my ability to remain focused, solve problems efficiently and communicate clearly.

- This role has given me great attention to detail and the ability to identify anomalies.
- Worked collaboratively in a fast-paced environment to ensure seamless operational flow and safety compliance.

SKILLS

HTML, CSS, JavaScript, React, Express, SQL, SASS, Git, Figma

Courses

Mimo - Full Stack Developer (2025)

This course teaches the essentials to become a full stack developer including: HTML, CSS, JavaScript, React, Express, SQL and working with databases.

Mimo - Front-End Developer (2024)

This course teaches the essentials to become a front-end developer including: HTML, CSS, JavaScript and React.

Mimo - Back-End Developer (2025)

This course teaches the essentials to become a back-end developer including: JavaScript, Express, SQL and working with databases.

Open Boot Camp - Web Dev Fundamentals (2024)

Focused on JavaScript and how to apply it to all aspects of web development.

EDUCATION

Brighton University, Brighton— *BA Filmmaking 2:2*

SEPTEMBER 2013 - JUNE 2016

During my BA in Filmmaking, I focused on sound design, editing and post-production, leading sound departments on multiple short films. I managed a small team, solving technical sound issues in fast-paced environments, while collaborating closely with other filmmakers to ensure seamless integration of sound and visuals using professional sound software;

- Strong problem-solving skills, honed through troubleshooting sound issues and providing immediate solutions during production.
- Ability to lead and collaborate with team members, ensuring smooth workflows and effective communication.
- Attention to detail, ensuring the final product met high technical and creative standards.
- Adaptability, demonstrated by quickly learning new tools and technologies in a constantly evolving industry.

PROJECTS

Portfolio — brettpine.co.uk

This is a website I designed and made to showcase my qualifications, projects and contact details - I used **HTML, CSS & JavaScript** to achieve this.

RuneScape Wordle — brettpine.co.uk/wordle

A Simple Wordle clone in the theme of RuneScape, this was my first website created using **React**.

Archer's Book Collection — archersbooks.co.uk

A website I made to keep track of my son's books - I used **HTML, CSS & JavaScript** and used Contentful as a CMS to handle the **API**.

Brett's To-Do App — brettstodo.app

A to-do list web application built with HTML, CSS and JavaScript. Includes features for adding, editing and deleting tasks with local storage to maintain data persistence.

Other projects available to view on my portfolio & GitHub.

SoloLearn - HTML, CSS & JavaScript (2024) -

Completed the HTML, CSS and JS introduction courses and the intermediate JavaScript.

BYOL - Responsive Web Design (2022) - Learned introductory HTML, CSS and JS with a focus on responsiveness.

Certificates & references available upon request.
